## Section A (For broadcasters electing Option One)

Stations that elect Option One must place a copy of this form on the station's public website, if such exists.

On its analog channel, and its primary digital stream, a station must air one transition PSA, and run one transition crawl, in every quarter of every day. This requirement will increase to two PSAs and crawls per quarter per day on April 1, 2008, and to three of each on October 1, 2008. Stations are required to air PSAs or crawls at various times in any given day part, and at least one PSA and one crawl per day must be run during primetime hours. On-air education must not contain inaccurate or misleading statements and must be provided in the same language as a majority of the programming carried by the station. PSAs must be at least 15 seconds, and closed-captioned. Crawls must run during programming for no fewer than 60 consecutive seconds across the bottom or top of the viewing area (See rules for additional details).

Have you aired a sufficient number of eligible PSAs (28, 56, or 84 per week, depending on the reporting period) during the correct quarters of the day?

Comments (add additional sheets where necessary):

WNAB has been running DTV education PSA's supplied by the NAB throughout the first quarter, even before the rulemaking mandating the PSA's. Before the advent of the rulemaking, WNAB had scheduled DTV PSA's through the dayparts we felt most likely to reach the greatest number of our viewers. This happened to coincide well with the dayparts mandated by the rulemaking and therefore we met and exceeded the PSA requirements for the quarter as a whole even though this form only covers the last day of the quarter. We are reporting our complete PSA totals for the quarter to demonstrate our commitment to DTV education.

WNAB only commenced running CST elements, however, on the day they were mandated, hence the total of only 3 crawls. We did, however, fully comply with the mandated averages and dayparts. Our crawls were 60 seconds in length and included information on the date and nature of the transition, which viewers would be affected, and included a website ([www.dtvanswers.com](http://www.dtvanswers.com)) and a telephone number (1-888-CALL-FCC) viewers could call for more information.

The crawls ran as follows:

3/31 15:13

3/31 17:20

3/31 21:49
